

## Wolverine by Prince Hydraulic Stack Valves

- Brand new WOLVERINE by PRINCE 20 Series hydraulic sectional control valves. Replaces Parker/Gresen V20 & Prince Series 20 valves. All valve components are sold individually to build a complete valve or used as replacement parts. Work sections are furnished with between the section o-ring seal kit. Black Phosphate coated cast iron construction with chrome plated spools.
- Inlet has both top and end ports. Outlet has side ports only.
- To order: purchase one inlet section, one inlet section relief valve cartridge, individual work sections, one handle for each work section, one outlet section for open center or one outlet section adding a conversion plug and a stud kit for the corresponding number of work sections. All components furnished separately for easy assembly.

### Ordering Example
